Subject Index to Volume II

A

Access systems
  totally implantable, and infections rates, 97
  vascular, implanted, patient care manual for, 169
ACTH. See Hormones.
ARDS. See Respiratory distress
Analgesia, patient-controlled
  via intrathecal catheter in outpatient oncology patients, 289
  nursing implications, 75
Antibiotics. See also specific antibiotics
  compatibility in total parenteral nutrition, 43
  at home therapy,

B

Blood gas interpretation, application to ARDS and COPD, 299

C

Cancer
  intraperitoneal chemotherapy for, IV team responsibilities, '84
  intraspinal narcotic infusions for pain, 161
  intrathecal PCN in outpatient oncology patients, 289
  management of chronic pain in, 79
Catheter
  central line
    multiple lumen, peripherally inserted, insertion and care of, 16
    single lumen, peripherally inserted, dwelling time and complications, 169
  epidural, infection control challenge, 52
  intrathecal, patient-controlled analgesia via, in outpatient oncology patients, 289
  percutaneous, and totally implantable access systems: infection rates, 97
  two-lumen peripheral, evaluation and clinical acceptance,
Chemotherapy, intraperitoneal, IV team responsibilities, 184
COPD. See Pulmonary disease
Cystic fibrosis, clinical challenge,
Cytomegalovirus, treatment with gancyclovir, 176

D

Drugs. See also specific drugs.
  IV administration guidelines, 188

E

ECG interpretation and diagnosis in cardiac patients, 26
Elderly. See Geriatric IV therapy

G

Gancyclovir, administration for cytomegalovirus infection, 176
Geriatric IV therapy, 56
  long-term, 236

H

Heart
  cardiac patient
    ECG interpretation, nursing diagnosis, and medication, 26
    fluid requirements, patient teaching, and nursing interventions, 154
    laboratory data interpretation and hemodynamic monitoring, 113
Hemochromatosis, at-home therapeutic phlebotomy for, 91
Hemodynamic monitoring, in cardiac patients, 113
Hormones, adrenocorticotropic, home IV administration in patients with multiple sclerosis, 249

I

Infection
  with epidural catheter, 52
  with percutaneous catheters and totally implantable access systems, 97
IRA rollovers: sheltering retirement funds from excessive taxation, 20
IV therapy
  at home
    ACTH in patients with multiple sclerosis, 249
    antibiotic,
    care of implanted access systems, 166
    insurance coverage for, 294
    PCA in outpatient oncology patients, 289
    transfusion,
  drug delivery: new technologies, 316
  workload management system for, 308

L

Lidocaine, for pain induced by potassium chloride infusion, 105
Lungs. See Pulmonary disease; Respiratory distress

M

Morphine, via intrathecal catheter in outpatient oncology patients, 289
Multiple sclerosis, and home IV administration of adrenocorticotropic hormone, 249

N

Narcotics. See also specific narcotics.
  intraspinal infusions for terminal cancer pain, 161
Nursing diagnosis, in IV nursing practice, 109, 245
Nutrition, total parenteral
  compatibility of antibiotic admixtures, 43

P

Pain
  with cancer
    intraspinal narcotic infusions for, 161
    management of, 79
  from potassium chloride infusion, lidocaine for, 105
Patient education
  care of vascular access systems, 166
  cardiac patients, 154
  nurse's responsibility, 179
PCA. See Analgesia, patient-controlled
Phlebotomy, at home: case presentation, 91
Potassium chloride infusion, pain induced from, lidocaine for, 105
Public speaking, 321,
Pulmonary disease, chronic obstructive, blood gas interpretation in, 299

R

Respiratory distress syndrome, adult, blood gas interpretation in, 299

T

Taxation, sheltering IRA funds from, 20
TPN. See Nutrition, total parenteral
Transfusion therapy, at home,

V

Vancomycin, drug utilization of, 239
